Summer Reading Program - Children

1:00 p.m. to 4:00 p.m. on March 5

Join us on the afternoon of March 5th to share your Summer Reading Program plans and past successes. Children's librarian specialists from around the region will be coming to discuss topics such as programming, incentives, and marketing for very young children, children, and tweens.

We hope you'll bring at least one Summer Reading-related idea with you. Please bring 30 copies of your idea to pass around. If you have information or plans you think would help your peers, please bring them in!

Cost for the Idea Share:
SWON Contributing Member - Free
SWON Basic Member and most others - \$10.00

To Register, visit this short link
<http://tiny.cc/swon-idea-share>

or the calendar at SWONlibraries.org.
Registration closes February 29th.

Build an Imagination Frame

9:00 a.m. to 12:00 noon on March 5

Alice Beresford will walk you through the construction process of a 4'x6' frame made of PVC pipe. She's providing all of the parts and tools and the imagination too. She'll show you how this simple frame can be assembled into a puppet stage, then re-assembled into a space ship, tunnel, and castle with the addition of dollar-store tablecloths.

Because of the materials and prep work involved, we can only build 10 frames at this event. You can have more than one person from your library building a frame, though. Just register individually and tell us who you will be working with. At the end of the morning, you will take the instructions and completed frame with you!

Cost for the Build it:

SWON Contributing Member - \$50.00 per frame
SWON Basic Member and most others - \$75.00 per frame

To Register, visit this short link
