

The State Library of Ohio is pleased to announce a new opportunity for training your staff on its recently transformed Mobile Technology Training Center beginning in July. Headquartered at the SEO Library Center in Caldwell, the Mobile Technology Training Center service now features the most popular mobile devices, updated desktop computers with touch screen monitors, and trainers to provide on-site instruction for library staff.

SEO staff developed the courses listed below and will provide the training. The number of course sessions per visit will depend on travel time to your location. There is no charge for our training, travel to your library, or set-up.

The Mobile Technology Training Center is a 35' bus equipped with the following technology:

- 10 iPads,
- 10 Samsung Galaxy Tabs
- 2 Kindle Fire HDXs
- 2 Nook HDs
- 10-networked computers with Windows 8.1 and Microsoft Office 2013
- Digital projector with screen,
- Networked printer

Note: Staff may use their own devices as long as operating systems and applications are up to date.

Registration will begin on June 16th for dates to begin in July and continue through December of 2014. The time for each course is approximately 60 minutes. All courses use a step-by-step approach to guide the user through each process. Register at <http://servingeveryohioan.org/training-facilities/mobile-lab/>

Available Courses
