Preconference Workshop II: From ADA Compliant to Universal Design: An Introduction for Libraries

This preconference will feature two local speakers with expertise in providing a positive user experience for patrons with disabilities.

L. Scott Lissner will provide a brief review of how the ADA's mandates impact library services with an emphasis on universal design. His presentation will provide best practice examples for compliance with physical spaces and interactions to serve patrons with various disabilities.

L. Scott Lissner,
The Ohio State University

Jerry Hensley will discuss ADA compliance and how it relates to digital platforms. In Jerry's presentation he will relate how users with disabilities experience our online resources. He will highlight best practices for website design and accessibility so that we can provide the best experience for all our patrons.

Jerry Hensley,
Wright State University
