

Ohio Speaker Series in November Presents: Mike Owens – Hardening Backups Against Ransomware

Who: Citizens of Ohio who want to survive a Ransomware attack

Title: Hardening Backups Against Ransomware

Speaker: Mike Owens, Senior Security Consultant with TrustedSec

When: November 28, 2022 (1pm)

Abstract: Human-operated ransomware represents a unique challenge to backup infrastructures. In this talk, TrustedSec Senior Security Consultant Mike Owens will present a straightforward strategy and practical guidance for hardening backup systems and ensuring your organization can recover in the event of an attack. Know how to prepare ahead of time to prevent ransomware from having disastrous impacts on your organization.

Bio: Mike Owens is a Senior Security Consultant with TrustedSec. With a background in risk management, Mike works on the Remediation Team to help clients resolve complex challenges and implement security best practices across cloud and on premises technologies. Mike's certifications include GIAC Cloud Security Essentials (GCSE), GIAC Certified Incident Handler (GCIH), GIAC Security Essentials (GSEC), and the Open FAIR certification for risk quantification from The Open Group.
