

## What's New in BLUEcloud Analytics – October 2023

### Folder Structure

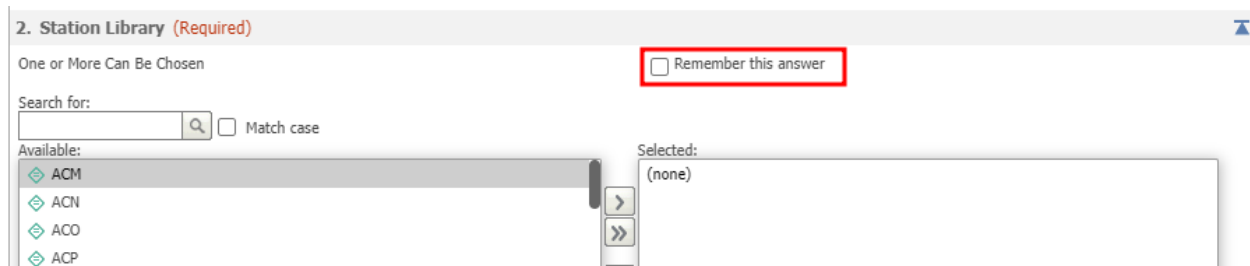

There is a new folder named **SEO NEW REPORTS**. Please begin using these reports as they use the new features listed below. The **SEO REPORTS** folder will be visible until January 31, 2024.

**Important:** Any subscriptions or personal views will need to be updated using a report from the **SEO NEW REPORTS** folder by January 31, 2024.

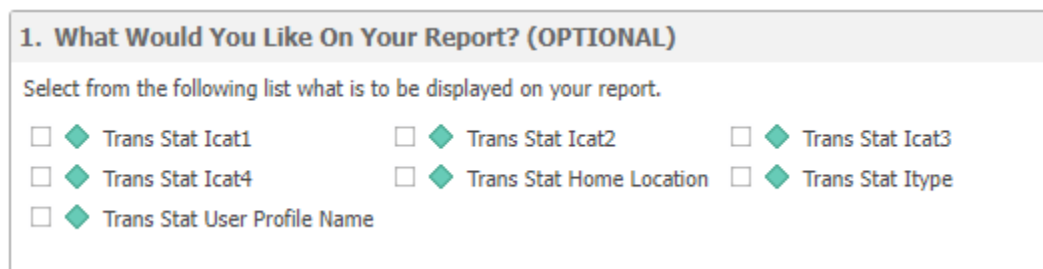

### Personal Answers

For prompts referring to Item, User, or Bill Library you will now have the option to save your answer. If saved, your response will be reflected in other reports that use the same prompt.

### Attribute Prompts

Reports will now prompt you to decide which attributes you want to have displayed in your report.

Some attributes may have different names in WorkFlows. A list of BLUEcloud Analytics attribute names to WorkFlows Terms is listed at the end of this document.

### Previous Day, Week, Month Filters in Report Options

Reports that displayed data for the previous day, week, or month have been combined. There will now be a prompt asking for the timeframe you want to be displayed.

#### 3. Please Choose a Time Period. (Required)

Select a time period to report on.

This prompt allows only one selection.

PREVIOUS DAY (Trans Stat)  PREVIOUS WEEK (Trans Stat)  PREVIOUS MONTH (Trans Stat)

### In House Use Option in Circulation Reports

By default, circulation reports will no longer display in house use statistics. You will now be prompted to display this information. You can save your response as a personal answer.

#### 4. In House Use

Select the option below to include in house use stats in your report.

Remember this answer

In House Use (Trans Stat)
