

Finding Matching Records in OCLC & WorkFlows

Searching Tips for WorkFlows

- Search by title keyword
- Search by title and author if title is common or short
- If not found by title, try searching by a standard number (using General Keyword)
 - ISBN
 - LCCN
 - UPC

Why?

- Why **title keyword** first?
 - Titles are the definitive match point
 - Helps identify duplicate records
- Why not **title browse**?
 - If all items on a record are shadowed (Missing, Mending, Lost, etc), the title will not appear in a browse search

Searching Tips for WorldShare

- Search by title using Keyword or Title Index
- Search by title and author if too many results
 - Keyword Search
 - Advanced Search
- If not found by title, try searching by a standard number (using Keyword)
- Ensure the record is in English

A futuristic, glowing sign with a dark blue background and a bright yellow border. The sign is set within a larger, ornate frame with a textured, metallic appearance. The background is a dark, atmospheric space with purple and blue lighting. The text on the sign is in a bold, white, sans-serif font.

A dramatic scene featuring four bright spotlights at the top, casting light down on a dark stage. In the center, the words "NO MATCH!" are written in large, bold, 3D metallic letters. The letters are illuminated from below, creating a strong glow and lens flare effects. The background is dark with some faint light trails.

500			Compact disc.

A dramatic scene featuring four bright spotlights at the top, casting light on a dark stage. In the center, the words "NO MATCH!" are displayed in large, bold, 3D metallic letters. The letters are illuminated from below, creating a strong glow and lens flare effects. The background is dark with some faint light trails.

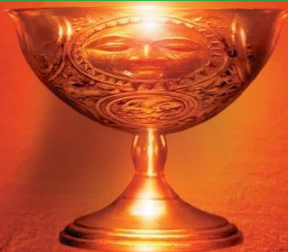

**NO
MATCH!**
